Rationale

The University System of Maryland maintains a central Internal Audit Office that independently appraises the System's activities to assist the Board of Regents and its Audit Committee in fulfilling the Board's fiduciary responsibilities. Internal Audit primarily functions to help managers discharge their responsibilities effectively, efficiently, and economically.

Internal auditing is an independent, objective assurance and consulting activity designed to add value and improved an organization's operations. It helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.

To that end, the Internal Audit staff reviews financial and operating activities, analyzes internal control structures and procedures, and recommends corrective measures to both administrators and operating managers. Internal Audit functions as a member of the System's management team, but responsibility for correcting deficiencies rests with the responsible administrators.
